STATEMENT FROM CFF'S PRESIDENT

CFF has assumed the task of revealing those forces that are surely eroding the quality of life in America. These destructive forces include:

- Fraudulent, criminal and/ or subversive groups in government, religion education and business.
- The innocent and naive who are merely followers and are easy prey for any fraudulent scheme or concept.
- Those who have the knowledge and the ability but simply will do nothing. They prefer to let someone else do the job for them.

The first group succeeds because they have a solid organization, a beautiful message, a deceptive plan, huge financial resources, abundant energy and the indirect assistance of the other two groups.

To eliminate these blights from our society requires a force capable of the task. CFF is doing the job and at our present pace could succeed in five or ten years.

Is that soon enough for you?
It certainly is not for me.

The longer our loved ones are subject to this mal-treatment, the more difficult their recovery. Not only must we rescue our children but we must destroy the forces that are holding them captive.

This seems like an impossible task as it can be done and the larger our physical and financial resources, the more and more effectively the job will be done.

I'm going to lay it on the line!

Thank you's and praise are most welcome but they do not provide facilities, equipment, educational materials, staff, etc. Nor do they pay the bills.

To succeed we must be equal in strength to those forces we are combatting.

- We have a charter.
- We have by-laws.
- We have tax-exempt status.
- We need financial support.

OPEN LETTER TO TED PATRICK

It has been difficult to contact you lately as our organization is separate from your individual efforts. We are much impressed with, and applaud your wonderful work in freeing individuals who have been brainwashed by cults. We in CFF are attempting, to the best of our ability, to educate the public and prevent the further increase in cult membership. We wish to help parents and the public who have been exploited and victimized by these cults.

Ted, we have received requests from parents, governmental investigative agencies, lawyers, psychiatrists, and the news media, seeking first hand evidence from former cult members. We realize that you know you can not accomplish all the work yourself. Will you provide the names of people now free of cultism, who are willing to testify? It would accomplish much toward helping us, the parents. Knowing that your goals and ours are the same, I am sure you will willingly provide this information. There will be space allowed in the next newsletter for your reply.

Most Sincerely,
